PROFESSIONAL SUMMARY

Systems Engineer with **11+ years as a Senior QA Automation Engineer** based in **Bogota, Colombia**. Built Selenium+Java and **Playwright+TypeScript** frameworks from scratch across identity document systems, banking platforms, and enterprise SaaS. Deep expertise in **API testing with Postman** (payload validation, scripted collections, and automated assertions) and **TestRail**-based test management across government-grade biometric systems at IDEMIA. Currently integrating **Claude Code and Cursor** into test workflows at Gorilla Logic -- AI-augmented quality engineering in daily production use. **ISTQB certified including Testing with Generative AI (v1.0)**. Cross-platform testing background across Mac, Windows, and Linux environments.

CORE COMPETENCIES

Playwright + TypeScript Automation	Selenium + Java Automation	API Testing with Postman (Scripted Collections)
TestRail Test Management	CI/CD Integration (Jenkins, GitHub Actions)	AI-Augmented Test Workflows
Performance Testing (JMeter)	ISTQB Certified (Foundation + GenAI)	

WORK EXPERIENCE

Gorilla Logic 05/2025 -- Present

Senior QA Engineer

- Build and maintain **Playwright and TypeScript** automated test suites for enterprise SaaS clients -- E2E, regression, and smoke testing across web and API layers.
- Integrate test execution into **GitHub Actions** pipelines with smoke suite on every PR and full regression on merge to main.
- Use **Claude Code and Cursor** to accelerate test creation and maintenance -- AI-augmented quality engineering in active production use.
- Participate in Agile ceremonies as QA lead: sprint planning, acceptance criteria review, and sprint sign-off gatekeeping.

Leanware 08/2024 -- 04/2025

Senior QA Engineer

- Integrated automated test suites into **Jenkins CI/CD pipeline** using shift-left approach -- PR-blocking gates for critical paths, reducing regression time across core banking systems.
- Validated complex financial transaction flows, data integrity, and compliance protocols using **Postman scripted collections** and SQL queries against the database layer.
- Managed defect lifecycle end-to-end in Jira; mentored junior engineers on test case design and defect documentation standards.

IDEMIA 01/2022 -- 08/2024

Senior QC / Integration Engineer

- Managed end-to-end test lifecycle in **TestRail** for government biometric enrollment systems -- test plans, test runs, and traceability reports delivered directly to client stakeholders.
- Validated REST API data flows with **Postman scripting** across biometric enrollment and issuance platforms with strict compliance and data integrity requirements.
- Led cross-platform testing campaigns across **Mac, Windows, and Linux** environments for government identity document applications -- zero compatibility failures during UAT.

Thales Group

12/2018 -- 10/2021

Senior QA Engineer

- **Built automated testing framework from zero** using Selenium and Groovy with Page Object Model -- reducing testing time by **75%** across identity document enrollment and issuance systems.
- Executed performance and load tests with **JMeter** across enrollment platforms to validate system stability under peak usage conditions.
- Acted as **primary client QA contact** during FAT and UAT stages -- presented test results, metrics, and sign-off documentation directly to client stakeholders. Recognized as **Top 10 Employee**.

NICE Systems (Sutherland)

06/2017 -- 12/2018

QC Engineer -- Enterprise IT Solutions

- Coordinated end-to-end integration projects for enterprise contact center solutions, validating system compatibility and delivering to client deadlines across functional, hardware, and performance cycles.

Acsendo

09/2015 -- 02/2017

QA Engineer

- Combined exploratory and automated regression testing (Java + JUnit), contributing to a **50% reduction in production bugs**. Used JMeter for performance validation and SQL for backend data integrity checks.

EDUCATION

Systems Engineer [Universidad Distrital Francisco Jose de Caldas](#)

2013

CERTIFICATIONS

ISTQB Certified Tester, Foundation Level (v4.0) [ISQI](#) -- ID: 26-CTFL 4-274267-12

ISTQB Certified Tester, Testing with Generative AI (v1.0) [ISQI](#) -- ID: 26-CTGenAI-274269-12

ITIL V4 Foundations [Axelos](#) -- ID: 100432057299_es

SKILLS

Automation: Playwright, TypeScript, Selenium, Java, Cypress, JavaScript, Page Object Model, Screenplay Pattern

AI Tools: Claude Code, Cursor, Postbot -- active in test workflow daily

API & Performance: Postman (scripted collections, assertions), JMeter, SoapUI, REST/SOAP

Test Management: TestRail, Jira, Confluence, QMetry, Zephyr

CI/CD & DevOps: Jenkins, GitHub Actions, Git, GitHub, Docker, Kubernetes, Azure DevOps

Databases: Oracle, MySQL, PostgreSQL, MongoDB, MS SQL Server **Cloud:** AWS, Azure

Platforms: Mac, Windows, Linux (cross-platform testing) **Methodologies:** Scrum, Kanban, V-Model, Waterfall, Shift-Left

Languages: Spanish (native), English (professional)
